

OneInbox Quickstart (TRUNCATED)

OneInbox Quickstart Guide

Build your first voice agent, get a phone number, and make a real call.

No third-party telephony account required.

Prerequisites

- A OneInbox account (sign up at <https://oneinbox-dashboard.vercel.app/signup>)
- An API key (starts with oi_sk_)
- An OpenAI API key (for the LLM)

Step 1: Create an Integration

Store your OpenAI API key in OneInbox:

POST /v1/integrations

```
{  
  "provider": "openai",  
  "credentials": {"api_key": "sk-..."}  
}
```

Step 2: Create a Model

Register which OpenAI model to use:

POST /v1/models

```
{  
  "kind": "llm",  
  "provider": "openai",  
  "model": "gpt-4o-mini",  
  "credential_id": "<credential_id>",  
  "system_prompt": "You are a helpful assistant.",  
  "temperature": 0.7  
}
```

Step 3: Create an Agent

POST /v1/agents

```
{  
  "name": "My First Agent",  
  "llm_id": "<llm_id>",  
  "first_message": "Hello! How can I help you today?"  
}
```

Step 4: Get a Phone Number

Search available numbers:

GET /v1/phone-numbers/search?country=US

Purchase one:

POST /v1/phone-numbers/purchase

```
{  
  "phone_number": "+15551234567",  
}
```

```
"agent_id": "<agent_id>"
```

```
}
```

Step 5: Make a Test Call

POST /v1/calls

```
{
```

```
"agent_id": "<agent_id>",
```

```
"to_number": "+1YOUR_PHONE",
```

```
"from_number": "+15551234567"
```

```
}
```

Your phone will ring. When you pick up, you will be talking
